

Bench Mount / Wall Mount Hex Wrench Holder for HXS-2 and PH-1 Sets

Park Tool Co. 6 Long Lake Rd. St. Paul, MN 55115 (USA) www.parktool.com

Assembly Instructions

The Bench Mount / Wall Mount Hex Wrench Holder can be mounted to vertical work surfaces such as pegboard or to a flat workbench top.

1. Install legs into backside of the holder and slide legs up into body.
2. Install one leg block into each rectangular hole of leg. Press or gently tap into place.
3. Install pegboard fasteners through front of mounting holes in legs. Pegboard fasteners are for 1/4" hole only.
4. Select section of pegboard to install assembled holder and press pegboard fasteners into pegboard.

If mounting on wall other than pegboard with 1/4" holes, or onto bench top, use appropriate screws (not provided) through leg mounting holes.
