Payment

Once ParkTool has received and serviced your torque devices, we will send you a finalized invoice through PayPal for the total cost including service fees and return shipping to your address as entered (exc. any import duties/fees).

Shipping

Shipping to Park Tool

Always wrap each individual torque device and pack tightly to prevent damage during shipping. ParkTool is not responsible for damage during shipment.

Return Shipping

Torque devices will be shipped back to you within one week of receipt via your choice of ground, 3-day, 2-day, or overnight shipping (subject to availability for international customers). Actual shipping cost including any insurance coverage will be added to your credit card charges. To request a specific carrier, please make a note in the **Special Instructions** field below.

International Customers

Import duties and fees can vary greatly for products being returned for repairs and service. Please research applicable import/export regulations prior to shipping to prevent unexpected costs and delays.
